## A Little Bit About Eltham Martial Arts Academy

At EMAA we strive to offer all of our students the highest quality of Martial Arts and Fitness Instruction. Our timetabled classes are selected to enable choices suitable for everyone, considering individual needs based on age, gender and experience level.

As part of our program we also endeavor to provide a holistic view of the Martial Arts through a selection of different disciplines. We are truly of the belief that there is no 'best' style and rather that is merely that which best suits the student. As such, our weekly classes incorporate empty hand styles like the Karate and Kick Boxing; Weaponry (which also doubles as un-armed combat) as in the Arnis and fitness classes that draw from various styles such as the Fusion. Periodically we also run seminars in other styles. This exposes the students to other ideas and training methods, and serves to widen their perspective and repertoire.

Our Instructors and assistant instructors, apart from being more than proficient in their respective arts, are friendly and approachable. They are also experienced in both the theory and practice of their styles which is demonstrated through their technique and their ability to communicate this knowledge to the class.

*Our Promise to You the student:* Just like our training we are forever in the pursuit of learning and improving. Here at EMAA we are always trying to expand our timetable as much as space and time permit and to add to our equipment and facilities. We continue to try to source information that we feel may be of benefit and we also run various social events throughout the year just for fun. We know you will like being a part of our club

and we are looking forward to training with you soon.  
See you on the Mats!

*A black belt is just a white belt who never quit!*

### Frequently Asked Questions :-

**Can I trial a class?** Certainly. You can and should come and partake in a trial class with us to see how you feel about the class structure, instructors, other students and the centre as a whole. A trial class will only set you back \$20 and if you decide to join later, then this fee is deducted from any fees payable. So if you join the trial class is essentially Free.

**What should I wear?** Just wear something that is comfortable and not too warm as you will get quite hot whilst training. We do not wear shoes so you don't need any special trainers etc, and you can borrow equipment such as gloves etc for the first few sessions till you acquire your own.

**Can I train in different classes?** For sure. Your fees cover any and all classes so you have the ability to try different sessions. The only exception is seminars which are not included.
